What is the largest hybrid solar system in NZ?

SkySolar are proud to launch the largest hybrid solar system in NZ - spanning 1018 panels and a 290kWh battery bank, installed for A&G Price in Thames. This is our biggest project to date and certainly the most advanced system in the country. \*Edits: 1018 x panels, 36 x batteries. "I would like to say how..."

How can solar power help New Zealand?

We're working with the sector on New Zealand's renewable energy and low-emissions transition. We're responsible for the governance and regulation of New Zealand's electricity industry. Solar power can help you become more self-sufficient, reduce your carbon footprint and reduce your energy costs.

How are solar panels installed in New Zealand?

The installation process for solar panels in New Zealand typically involves several steps. First, a site assessment is conducted to determine the suitability of your property for solar panel installation. Factors such as roof orientation, shading, and structural integrity are evaluated during this assessment.

Are solar panels a good investment in New Zealand?

Solar panel installation can be a worthwhile investment for homeowners and businesses in New Zealand. With the rising cost of electricity and growing concerns about the environment, solar energy offers a sustainable and cost-effective alternative.

Is going solar a good idea in New Zealand?

Going solar helps the environment - it creates clean, green energy and is a great way to reduce your carbon footprint. Going solar demonstrates your commitment to sustainability and will help New Zealand achieve its target of net zero greenhouse gas emissions by 2050. Is your property suitable for solar?

Are grid-scale solar farms a key role in New Zealand's economy?

Speak with one of our experts. Utility or grid-scale solar farms are set to play a key role in the electrification of New Zealand's economy. Although few farms are currently operating, grid-scale solar accounts for approximately half of the new generation interest in Transpower's pipeline and makes up the largest share of advanced projects.
