

Sphelar power CuraÃ§ao

What is sphelar®?

Sphelar® is a registered trademark of Sphelar Power Corporation. Official website of Sphelar Power Corporation. Based on 3-dimensional light capturing micro spherical solar cell,Sphelar®,we provides see-through BIPV (Building Integrated Photovoltaics),compact solar modules for electronic devices and original concepts of solar lighting products.

Who makes sphelar solar cells?

Sphelar Power Corporationhas commercialized the world's first small diameter spherical solar cell,Sphelar ®,and provides its applied products.

How can sphelar power bring solar energy closer to you?

Bring solar energy closer to you. Sphelar Power proposes new solar products, news way to enjoy the Sun. We have developed a filament-shaped solar power generation yarn that generates electricity with sunlight and has excellent flexibility. Using this photovoltaic yarn, it is possible to manufacture textiles that generate electricity.

What does a sphelar solar cell look like?

1-2mm in diameter,it looks like a bead. Sphelar® is the micro spherical solar cell with electrodes in opposite sides. Light does not fall in a uniform manner in the natural world. The position of the sun is constantly moving. Some of the sunlight are dispersed by clouds and others are reflected of glass and water.

Sphelar Power closed its last funding round on Mar 7, 2014 from a Venture - Series Unknown round. Who are Sphelar Power 's competitors? Alternatives and possible competitors to Sphelar Power may include Mahindra Solarize, Zhejiang JinkoSolar, and Energistics. Unlock for free .

Sphelar Power Corporation. The world's first spherical solar cell more efficiently captures light from all directions, bringing solar energy closer to our lives. Why do solar cells need to be flat? The sun moves from east to west, and with direct and reflected light, sunlight never shines from the same direction throughout the day. Based on ...
