Why switch to solar power. Sri Lanka is one of the most expensive energy markets in the world. The use of solar can significantly reduce or eliminate your electricity bill as well as ensure an uninterrupted power supply. The average payback on solar power in Sri Lanka is 5 years. After this payback period, you are earning money on your roof.

Making the decision to install solar on your home is smart. Utility costs tend to rise every year, while solar allows you to lock in low rates guaranteed for years. ELSolar consultants will tell you how much you can save.
