

St Kitts and Nevis Solar Energy for Homes

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

Does St. Kitts have solar power?

St. Kitts has both grid-powered induction lighting and solar-powered street lights in place along roadways. A 1 MW solar photovoltaic farm offsets 100% of the electricity at the main airport.

How much energy is lost in St Kitts & Nevis?

Reports indicate that in St. Kitts and Nevis, higher losses are largely attributable to nontechnical losses such as unmetered consumption, leading to losses that are higher than the U.S. Energy Information Administration's average transmission and distribution loss of 6%. By comparison, the U.S. Energy Information Administration reports an average transmission and distribution loss of 6%.

For solar energy, Saint Kitts and Nevis have adopted power purchase agreements (PPAs) to attract private investment. Geothermal energy, a riskier endeavor, is being supported by contingently recallable grants from the Caribbean Development Bank (CDB).

The National Energy Policy has created the framework that allows St. Kitts to transition from a primarily fossil fuel source of energy to alternative renewable energy sources such as wind, solar, geothermal, hydro and waste to energy (WTE).

BASSETERRE, SAINT KITTS (Press Secretary): The Government of Saint Kitts and Nevis and the St. Kitts Electricity Company Ltd (SKELEC) have executed an Amended Power Purchase Agreement (PPA) with project developer SOLEC Power Ltd for the largest solar PV and battery energy storage project in the Caribbean.

BASSETERRE, St. Kitts and Nevis and YVERDON-LES-BAINS, Switzerland, 4 th December, 2023 - Leclanché SA, one of the world's leading energy storage companies, will provide the island of St. Kitts with 35.7 MW of ...

St Kitts and Nevis Solar Energy for Homes

The 2021 Energy Report Card for St. Kitts and Nevis provides an overview of energy sector performance and includes energy efficiency, projects, technical assistance, workforce, training and capacity building information, subject to the availability of data.
