The islands of St. Kitts (168 km²) and Nevis (93 km²) are located in the Lesser Antilles chain of islands in the eastern Caribbean. They are separated by a channel of just over three kilometres. The islands were inhabited first by the Sibonay who arrived approximately 2000 years ago from Central America.

Upon completion, the St. Kitts project will be the largest solar generation and energy storage system in the Caribbean and a model for other island nations worldwide. In its first year of operation, the system will generate ...
