

Who is Stora Enso?

Do you want to know more about Stora Enso? Our solutions for paper, packaging, wooden construction and biomaterials are today found across continents and industries. We are active in sectors such as building, retail, food and beverages, manufacturing, publishing, pharmaceutical, cosmetics, confectionary, hygiene and textiles.

What materials are used in Stora Enso?

Wood is the main raw material in Stora Enso's production processes. Virgin fibre is used for the production of all packaging materials used for sensitive products such as food, toys, and pharmaceuticals and for several paper grades. For more information about our wood procurement see pages 43-49.

Is Stora Enso a bioeconomy?

As a renewable materials company, Stora Enso's business model aligns well with the concept of a bioeconomy, offering sustainable alternatives to fossil-based materials. Since our products are based on a raw material that is renewable and reusable they offer favourable alternatives to fossil-based goods.

Where does Stora Enso use paper?

Seven of Stora Enso's mills currently use paper for recycling (PfR) as raw material. Recycled newspapers and magazines are used to produce certain paper grades at Langerbrugge Mill in Belgium (where they account for 100% of sourced fibre), Sachsen (100%) and Maxau (75%) in Germany, Hylte in Sweden (50%), and Dawang in China (100%).

Is Stora Enso a good company?

Stora Enso has maintained its position in the Euronext Vigeo - Europe 120 index as one of the 120 most advanced European companies in terms of environmental, social, and governance performance. Stora Enso is classified as "Prime" by Oekom Research's environmental, social, and governance rating methodology.

Is Stora Enso a responsible sourcing company?

Stora Enso has not been subject to any significant fines or significant monetary sanctions due to non-compliance with laws and regulation during 2015. SR 18 and 40. Our key performance indicator on responsible sourcing is based on the coverage of our Supplier Code of Conduct in supplier spending.
