From fresh food to fuel to local produce - we want to be the go-to store for everyone in the community. Visit our Global Retail Page Visit our Global Retail Page. Commercial Fuels . We want to be the preferred energy solutions partner for all ...

The GHDP will be used to gain experience within Namibia and to train local employees with the conversion of renewable energy into green molecules like hydrogen and ammonia. This demonstration project will produce hydrogen for local heavy-duty equipment like trucks, locomotives, tugboat, port/mining equipment and gensets.

The remaining three REFIT licences are all around Okatope and include Tandii, NCF energy and Unisun energy. It is hoped, these will be complete in the early months of 2018. With eleven plants likely completed by Christmas, NamPower would have boosted local power supply by 55MW, around 10% of Namibia's demand.

GreenGo Energy, a global leader in renewable energy and green hydrogen solutions, is thrilled to announce its strategic expansion into Namibia at this week's Global African Hydrogen Summit (GaH2S) in Windhoek, Namibia. This move underscores our commitment to driving the transition to a sustainable,

SummaryLocationOverviewDevelopersSee alsoExternal linksThe Erongo Battery Energy Storage System, also Erongo BESS, is a planned 58 MW (78,000 hp) battery energy storage system installation in Namibia. The BESS, the first of its kind in the country and in the Southern African region, will be capable of providing 72MWh of clean energy to the Namibian grid.

Namibia is on the cusp of becoming a green hydrogen production hub, thanks to its abundant renewable energy resources.Cleanergy Solutions Namibia, a powerful partnership between the Ohlthaver & List Group (O& L) and CMB.TECH, is leading the charge in driving this transformation.. As a truly African company employing more than 5000 people, the Ohlthaver ...

Namibia is expanding its own renewable energy production by hundreds of megawatts in photovoltaics and wind power. This rapid expansion poses a challenge for the Namibian electricity sector. In light of this situation, KfW ...

About Us Who We Are Our Vision is bringing affordable renewable energy & clean water solutions to the people of Namibia and beyond.... Taatisolar is a for-profit social enterprise that was established in 2017. It is a 100% registered Namibian entity with a focus on direct import and distribution of solar, water and sanitation products [...]

Discover solar energy solutions in Namibia, leveraging high solar irradiation for efficient power generation, off-grid systems, and solar water heating. ... Uninterrupted power solutions that store excess solar energy for use during outages. These systems provide peace of mind and operational continuity for homes and businesses alike.
