

Sun store solar Sudan

Does Sudan have solar energy?

Sudan has one of the lowest levels of solar development in Africa although it has one of the best levels of solar radiation in the whole continent. The Sudanese government tried to implement several initiatives to increase the share of renewables in the country's energy mix over the past years but so far results seem to be quite limited.

Will Sudan be able to deploy solar power in Africa?

If implemented, these projects would represent the country's first attempt to deploy utility scale PV capacity. Sudan has one of the lowest levels of solar development in Africa although it has one of the best levels of solar radiation in the whole continent.
