Niestetal, Hessen. Get the latest business insights from Dun & Bradstreet.

The more controllable the system is, the more comfortable the indoor environment will be. Hunter Douglas
offers a full range of custom control systems for customers, no matter if it is a basic control system based on
the sun and weather conditions or an intelligent control system that takes the overall management of the whole
building and human-oriented control into consideration.

These track the sun biaxially throughout the day. With our solar systems we can cover any energy demand
with solar energy, from 100% heat to 100% electricity. However, for larger projects of 20 kWp or more, we
also realize conventional photovoltaic systems, including lightweight PV, in order to offer our customers the
best solution in every case.
