SVEA SUNFUSION carries out projects of smaller and larger scale with full contracting, i.e. in-house solutions with functional responsibility. ... Solar cells capture solar energy from the sun's rays and convert it into electricity. When the sun illuminates the front of the panel, an electric current is created between the front and back of the ...

Sunfusion has a hybrid system that runs on batteries that fit in the space of a refrigerator. There is an electric meter to SDGE with a switch which will automatically switch to the grid should it be needed, thus hybrid. We had Sunfusion install a system on our duplex in Encinitas and it is running both units.
