With a max. output of up to 4600 kVA and system vol-tages up to 1500 V DC, the SMA Sunny Central Storage allows for more efficient and flexible system design for battery power plants. The SCS UP-XT versions allow a system design with higher output power and higher short-circuit current contribution. The intelligent

Der SMA Sunny Central Storage erm&#246;glicht mit einer Leistung von bis zu 3067 kVA bei Systemspannungen von bis zu 1500 V DC eine effizientere und flexible Anlagen-planung in Speicherkraftwerken. Der Sunny Central Storage UP-XT erlaubt eine Anlagenauslegung mit h&#246;herer Ausgangsleistung und h&#246;herer Kurzschluss-Stromf&#228;-higkeit.

The Sunny Central UP Plug & Play System combines central inverter, transformer and storage solution in a compact unit. In addition to facilitating transportation, the system enables fast and trouble-free project commissioning in the power plant.
