The Victron Sun Inverter combines a sine-wave inverter and a PWM solar charge controller in one enclosure and is easy to install, with a minimum of wiring. The inverter allows you to power domestic equipment - requiring 230V AC - using "leisure" or "automotive" batteries rated at 12V or 24V. The solar charger ensures that the batteries are being charged by energy harvested from ...

Amperion - SunStore will not be liable for product malfunctions as a result of incorrectly installed systems. The Victron Filax 2 ultra-fast transfer switch has been designed to switch sensitive loads, such as computers or modern entertainment equipment, from one AC source to another. The priority source typically is the mains, a generator or shore power.
