

# Suntech Solar Power Generation Project

What's new at Suntech's Al Dhafra solar power plant?

Suntech has announced completion of delivery of 680MW of modules for China Machinery Engineering Corporation's Al Dhafra PV2 solar power plant in the United Arab Emirates, further advancing construction of the world's largest single-site solar project.

Who is Suntech Power?

Suntech Power was founded in 2001 by Dr Zhengrong Shi who is widely recognised as a pioneer of solar module manufacturing and dubbed as the "sun king" as he became the world's first solar billionaire in 2006.

Where are Suntech Solar modules manufactured?

Suntech, founded in 2001, is the world's largest producer of silicon solar modules\*. They have offices in 13 countries, including regional headquarters in San Francisco, California, Switzerland, and China. Suntech is also listed on the New York Stock Exchange.\*

What is Suntech eco building?

Representative of China's Building Integrated Photovoltaics (BIPV) project, the Suntech Eco Building was officially completed at the end of 2008. Having stood for over 10 years, this BIPV system featured edifice evokes a contemporary, fashionable style and avant-garde concept while employing solar facade modules for its power generation.

Who owns Suntech Solar?

In 2014 Suntech was acquired by Shunfeng International Clean Energy Limited, a renewable energy investment and independent power company. Suntech has received international recognition, being awarded Top PV Brand by the EuPD Research Institute. This is an illustrious award as EuPD is considered the solar industry's leading research institute.

Is Suntech Power a good solar panel company?

Suntech Power is a mid-sized Chinese solar panel producer. They've been in the business for over 20 years and have a good track record of reliability under Australian conditions. Because they have better than average resistance to hail and high winds, they make a good, low cost choice for those concerned about storm damage.
