

Where can I find information about energy in South Sudan?

Find relevant data on energy production, total primary energy supply, electricity consumption and CO2 emissions for South Sudan on the IEA homepage. Find relevant information for South Sudan on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage.

Why is energy infrastructure underdeveloped in South Sudan?

Partly due to the civil wars (e.g., 1955-1972, 1983-2005 & 2013-present), energy infrastructure remains very underdeveloped in South Sudan. Despite a peace agreement in 2015, which has been revitalized recently, conflict has impeded the country's effort in transitioning to renewable energy.

What are the energy indicators for South Sudan?

(Sustainable Development Goal indicators 7.1 energy access, 7.2 on renewable energy and 7.3 on energy efficiency). Find a summarized energy profile for South Sudan (Atlas of Africa Energy Sources). Climatescope 2019 lists the clean energy policies and investments for South Sudan.

How does lack of electricity affect business in South Sudan?

Specifically, over 75% of firms surveyed in South Sudan complained that lack of energy hinders business operation. Second, lack of electricity drives up costs as businesses and families try to produce their own power, which is extremely expensive.

Is oil the right form of energy for South Sudan?

However, oil is not the right form of energy to meet South Sudan's rising energy demand due to (1) high costs (e.g. high costs of fuel and generator repair), (2) sporadic diesel fuel supply, (3) inefficiency and unsustainability and (4) detrimental health impacts on people and environment.

Is South Sudan a sustainable country?

**Opportunities and policy tools** While the modern energy infrastructure is almost non-existent in South Sudan, the country is endowed with rich sources of sustainable energy. Hydropower capacity alone is estimated at 5,583 MW. Major sites of hydropower are located on the Nile, including Fula, Bedden, Lekki, and Shukoli (Liu et al., 2013).

South Sudan's energy sector is critical to its economy, as oil exports account for a significant chunk of its revenue. The country's oil deposits, which are predominantly concentrated in the oil-rich regions of Unity, Upper Nile, and Jonglei, support the economy and drive investment and development activities. Furthermore,

During the committee's work, BB Energy and Trafigura were singled out. Following our first article about the audit, BB Energy wrote to Africa Energy Intelligence to make it clear that the company had no debt with South Sudan. In a second letter, the group acknowledged that it had owed the state approximately \$8 million for the MT Super Lady and ...

On the lookout for ways to diversify the country's oil partners for months, South Sudan president Salva Kiir has asked his oil minister, Ezekiel Lol Gatkuoth, to speed up the highly sensitive file of oil product imports and the local crude trade. According to our sources, a top executive of Nigerian group Sahara Energy, Valery Guillebon, travelled to Juba in April to meet ...
