Exercise and Lifestyle Tips. Exercise Regularly - Physical activity stimulates natural peristalsis via muscle movement. It also helps to boost serotonin production improving gastric motility. Establish a Routine - Try to use the bathroom at the same time every day, especially after meals. The natural "gastrocolic reflex" is stronger after eating, which can stimulate the urge to go.

European Energy arbetar med förnybar energi. Sol, vind, batterilagring och power-to-x. Samarbeta med oss och möjliggör en grön omställning. Vi är en stor internationell aktör med lång erfarenhet och vi arbetar för att driva på den ...
