Who makes Sharp Solar panels?

Peter Thiele, President of Sharp Energy Solutions Europe Sharp's portfolio of high-performance solar modules is built for residential, commercial and free-field installations. We constantly adapt our range of PV panels to the latest technologies and check every new technology thoroughly before use to ensure longevity.

Are sharp solar panels a safe bet?

Sharp solar PV panels are always a safe bet. This is because we focus on providing proven technology that has passed rigorous tests and will perform for decades to come. Our PV line-up covers various sizes of monocrystalline half-cell panels for residential, commercial & industrial solar power systems and multi-megawatt solar panel farms.

Why should you choose Sharp Solar panels?

Sharp's portfolio of high-performance solar modules is built for residential, commercial and free-field installations. We constantly adapt our range of PV panels to the latest technologies and check every new technology thoroughly before use to ensure longevity. We strictly source quality components and test our panels above IEC standards.

How many solar panels does sharp sell?

To date, Sharp has delivered more than 50 million cutting edge photovoltaic (PV) panels worldwide, meeting the needs of thousands of international solar energy customers. From our European office we sell our solar power systems to installers, distributors and project companies in Europe, the Middle East and Africa.

Who is Sharp Solar Energy?

Providing solar energy solutions has been Sharp's core competence for 65 years. To date, Sharp has delivered more than 50 million cutting edge photovoltaic (PV) panels worldwide, meeting the needs of thousands of international solar energy customers.

Is Sharp Electronics GmbH a good company?

Sharp Electronics GmbH has achieved the EcoVadis Gold rating, affirming our commitment to high standards in environmental, social, and ethical performance. This Gold rating places us among the top 5% of all companies rated by EcoVadis globally. Awarded for high customer satisfaction based on PV market research in Germany.
