

Switzerland wooreen bess

What is the Wooreen Bess project?

About the Wooreen BESS The Wooreen BESS will be located on the site of EnergyAustralia's Jeeralang Power Station, located at Hazelwood North in the Latrobe Valley. The project comprises 350 megawatts (MW) of 4-hour capacity of energy storage, equivalent to 1,400 megawatt hours (MWh) of electricity.

Will Energy Australia Fund Wooreen Bess in the Latrobe Valley?

Energy Australia's bid to fund the development of the 350 MW Wooreen BESS in the Latrobe Valley, is one of six successful tenders in Victoria and South Australia.

Where is Hallett Bess located?

About the Hallett BESS The Hallett BESS will be located near EnergyAustralia's Hallett Power Station in Canowie, 210km north of Adelaide. The Hallett BESS will have an initial storage capacity of 50MW and discharge capacity of up to 200MWh and be able to power up to 80,000 homes and small businesses for four hours.

Called Wooreen Energy Storage System, the project is being built in part to replace EnergyAustralia's 1,450MW Yallourn coal-fired power station, scheduled for retirement in mid-2028. Yallourn burns around 18 million ...

ICA Partners are pitching Wooreen to interested parties as "one of the largest BESS assets in Victoria" and "one of the longest-duration systems in the national energy market (NEM)", in a ...

Agnew Gold Mine BESS (13MW/4MWh), Western Australia ... Wooreen Energy Storage System (350MW/1400MWh), Victoria. Co-located with EnergyAustralia's Jeeralang gas-fired power station, the Wooreen Energy Storage System will be Australia's first four-hour utility-scale battery of 350MW capacity. It will provide cover for more than 230,000 ...

Watch it EnergyAustralia's Wooreen BESS. Try it Transgrid HumeLink Interactive Map. Try it Transgrid VNI West Interactive Map. Try it VicGrid's Offshore Wind Energy Transmission. Keep exploring . A unified brand and message. The average Australian has not had to think much about where their energy comes from. So why should they now as we race ...

Wooreen Energy Storage System (350MW/1400MWh), VIC. Co-located with EnergyAustralia's Jeeralang gas-fired power station, the Wooreen Energy Storage System will be Australia's first four-hour utility-scale

battery of 350MW capacity. It will provide cover for more than 230,000 Victorian households for four hours before needing to be recharged ...

"Wooreen will be able to power the equivalent of more than 230,000 Victorian households for four hours before being recharged. Its ability to store and rapidly supply energy during times of high demand will be vital in supporting solar and wind renewables as part of Victoria's electricity system of the future." ...
