

At Terra Firma we believe in making a positive change, but we also believe that responsible investment is no longer viewed as a "nice to have," but rather, has become a critical element in gaining market share, raising capital and engaging employees. Through our investment decisions and investment management, we aim to deliver strong ...

Terra Firma is involved in the import of security seals for sales and distribution in Kenya. We source the seals from a well established manufacturer in China who integrate research and development in their production and we are devoted to distributing plastic security seals and cable seals of only the best quality.

The nature of the professional training within Terra Firma is broad, depends on the development needs of the individual and can include both technical and soft-skills based training. We encourage our staff to take responsibility for their own personal and professional development. That development can take many forms such as on-the-job coaching ...

Dynamic Replacement (DR) technique is an extension of Dynamic Compaction (DC) to compressible soils (such as soft clays, silt, sabkha...) where a large diameter columns (up to 2.5m diameter) of very dense granular materials are constructed by dropping heavy pounders from great heights into the soft soil.
