If we can't repair it, we'll send you an Amazon e-gift card for the purchase price of your covered product or replace it. Product Eligibility: Plan must be purchased ...

I ordered the wall charger when I ordered my Tesla. It doesn't make sense to only use superchargers when you have really inexpensive electricity at home. I don't have solar and my power costs around \$0.10-0.14/kwh depending on the month. That's about half the price of supercharging (if we even had any in my town). Not to mention.

Considering installing a Tesla Wall Charger? Our comprehensive guide breaks down the costs and factors influencing installation, from the charger price to potential electrical upgrades, ranging from \$500 to \$2,000. We discuss DIY vs. professional installation, savings through rebates, and long-term benefits of home charging. Learn how to maximize your ...
