Who certifies solar inverters in Thailand?

For inverters, a crucial component of any solar energy system, the certification is given by the Provincial Electricity Authority (PEA) and the Metropolitan Electricity Authority (MEA). Any solar inverter manufacturers in Thailand must adhere to these regulations to ensure the safe and efficient operation of the inverters.

Are solar panels safe in Thailand?

In Thailand, solar panels and the associated equipment need to conform to the standards set by the Thai Industrial Standards Institute (TISI). TISI provides certification for different types of solar panels based on international standards. Solar panels that are imported or manufactured locally must pass TISI's safety and performance tests.
