Navitas is unique in that: First, we have in-house R& D capabilities and are on the forefront of designing new battery chemistries; second, we have the best systems engineers to design these advanced cells into robust battery products and systems; and third, we operate one of the most flexible automated production lines for manufacturing battery cells and battery systems.

Navitas Systems LLC, a leader in comprehensive energy storage solutions, was formed in 2011 with the merger of MicroSun Innovative Energy Storage Solutions and MicroSun Electronics, and the acquisition of lithium battery company ...

Major telecom and computer systems are the modern day "factory floor"--if it goes down, significant revenues are lost. The ability to minimize the self discharge, respond to the load immediately, maximize recharge after an outage, are all crucial.

Navitas fills a unique gap in the marketplace: The ability to domestically produce cells of varying chemistries and shapes that the large cell manufacturers are not geared to offer. The facility is ISO 9001-2015-certified, and is ITAR compliant for defense industry work.
