Should China censor Weibo?

Weibo, China's answer to Twitter, has long been a prime target for stringent online censorship thanks to its broad audience base and ability to help influence public opinion. But in the eyes of the Chinese Communist Party, it is not censoring enough-- and needs to pay a price, literally.

Is China trying to control Weibo?

Runfeng He has written one of the most comprehensive accounts ever undertaken of the ways the Chinese government has attempted to control Weibo, the micro-blogging site in China most akin to Twitter. According to official Chinese figures, Weibo reached an astonishing 331 million users in June 2013, but fell to 275 million a year later.

How did China respond to Weibo?

These were market-access control, legal restrictions, administrative regulations, Weibo operators' self-censorship, containment and balance of Weibo opinion, and assimilation and domestication of Weibo. The result is a comprehensive and up-to-date account of the Chinese government's response to Weibo, packed with original material.

How does China censor the media?

China has one of the world's most restrictive media environments, relying on censorship to control information in the news, online, and on social media. The government uses libel lawsuits, arrests, and other means to force Chinese journalists and media organizations to censor themselves. Thirty-eight journalists were imprisoned in China in 2017.
