

# Tianfu Photovoltaic Panel Tianhong

What is TW solar's investment agreement with Meishan?

In 2022,TW Solar signed an "Investment Agreement" with Meishan Management Committee of Tianfu New District,Sichuan to build a 32GW high-efficiency crystalline silicon cell project. The project will be constructed in two phases,with a total investment expected to be RMB12 billion.

What makes Tongwei a high-purity crystalline silicon 'intelligent manufacturing in China'?

With a purity of 99.999999999%,the products represent the excellence of high-purity crystalline silicon "intelligent manufacturing in China". With the solid and robust upstream reserves within the industry chain,Tongwei entered the module business in 2013. The product is produced by the "Industry 4.0" system of smart manufacturing.

Are polycrystalline photovoltaic panels suitable for large-scale installation?

These modules are suitable for large-scale installation. Polycrystalline photovoltaic panels decrease the costs associated with solar power mainly by reducing production costs,improving silicon material use,and achieving economies of scale in large-scale production,while energy consumption and maintenance costs are reduced at the same time.
