What is Tianneng lithium battery?

Pack is smaller. The size of Tianneng lithium battery is almost 30%-40% of that of the same lead-acid battery under the same energy, which is more space saving, more versatile, and easier to install! The positive electrode adopts ternary manganese-lithium composite system with high discharge platform; 55% discharge capacity ratio > 100%

Why should you choose Tianneng lithium battery?

In limited small space, more high-energy materials are loaded; Light weight, high energy, long endurance. Pack is smaller. The size of Tianneng lithium battery is almost 30%-40% of that of the same lead-acid battery under the same energy, which is more space saving, more versatile, and easier to install!

What is the performance of Tianneng lithium Electric Products?

The high and low temperature performance of Tianneng lithium electric products is better, the low temperature (-20°C) can reach more than 90%, the high temperature (55°C) can reach more than 95%. 18650 series wide pole ear design, to meet the large current path, 3C rate discharge capacity ratio of more than 95%;

Why is Tianneng Group a leader in lithium ion technology?

To realize the product process quality control, the whole life cycle management, to achieve continuous improvement and quality enhancement Tianneng Group is committed to the research of lithium ion technology, with many years of development and leading technology.

How long do Tianneng ternary lithium batteries last?

The cycles of Tianneng ternary lithium electric products have reached 800 times (100% DOD, 80% EOL), which is far beyond the life of lead-acid batteries. A group of batteries can be easily used for 3 years, and the single use cost is lower!

What is Tianneng traction battery?

Tianneng traction battery provides powerful traction batteries for material handling equipment, like forklifts, riders, stacks, GSV, AGV, etc, to deliver every piece of your material quickly and safely in place.
