Tier 1 Panel manufacturers are a list published by Bloomberg New Energy Finance every quarter. Unfortunately, you do need a pricey subscription to access it. The classification originally started in 2012, and although the list doesn't judge the quality of the solar panels themselves, the solar industry has found the Tier 1 list a great way to identify the best ...

A Tier 1 solar panel is a panel that is made by a manufacturer that has been rated as Tier 1 by a reputable independent PV industry analyst. Tier 1 is the highest (best) tier, and means that the analyst who ranked it believes that the module manufacturer scores well on lots of criteria including: Experience; Financial position; Manufacturing scale

The factory is scheduled to commence production in 2024 and will contribute significantly to SEG's localized supply chain integration. Founded in 2016, SEG is a leading vertically integrated PV manufacturer headquartered in Houston, Texas, the U.S., and is dedicated to delivering reliable and cost-effective solar panels to the markets.

Although it's important to look for a Tier 1 panel (or at a minimum Tier 2), there may still be some differences between different manufacturers. That being said, the price difference does not need to be this large unless the panel option for ...
