What are Tier 1 solar panels? "Tier 1 solar panels" are solar panels made by large, reliable solar panel manufacturers. This classification was originally created by BloombergNEF in 2012. It's not a system to judge the quality of solar ...

The infamous Bloomberg Tier 1 ranking is commonly referred to as a bellwether in the solar industry for identifying the better solar panel brands. It is important to note that this ranking only looks at each manufacturer's bankability. This is important because the business will need to be around for 25-30 years if you expect them to honour their lengthy warranty terms.

Most of the manufacturers in the first tier achieved module shipments of more than 50GW each, which was significantly higher than those of the following manufacturers in the ranking. Two overseas companies made ...
