With a focus on providing high-quality products and services, Enerflex Energy Systems is dedicated to meeting the needs of their clients. Their team of experts is committed to delivering efficient and reliable solutions in the field of electronics, ensuring customer satisfaction and building long-term relationships.

Toromont Power Systems has the solution to meet your demanding needs. From truck engines to our fleet of portable generators, transformers, distribution equipment, chillers, air conditioners and heaters are packaged to meet your power systems needs.

By transforming wasted heat into useful energy, a Toromont CHP system is up to 90% more efficient than traditional power generation. The success of a CHP power generation project comes down to the cost of electricity per kilowatt-hour. Even saving tenths of a cent in cost per kilowatt-hour equates to millions of dollars saved over the system's life.

Toromont Power Systems controls can provide a variety of HMI experiences, including:

- o View data from the various components (UPS, ATS, generator set, load banks, etc.) located throughout the facility
- o Integrate with building management system (BMS)
- o System level logging, trending and reporting with built-in state-of-the-art fault alerts

In January 2010, the operations of Toromont Energy Systems Inc, a subsidiary of Toromont Industries Ltd, were combined with the operations of Enerflex Systems Income Fund to form Enerflex Ltd. With approximately twice the resources of its predecessor companies, Enerflex is now the single-source supplier for natural gas compression, oil and gas ...
