

# Tractive power solutions Mayotte

Our TP1000 Tractive pusher is pedestrian-operated and battery-powered, designed to push and pull wheeled loads up to 15,000 kg. Used in rail applications this Tractive unit will move up to 100,000 kg. They ensure that operators can enjoy safe and efficient handling at all times.

Tractive Power's range of Tractive Tugs is designed to offer unmatched efficiency and safety in moving heavy loads across various industrial settings. These versatile electric tugs are perfect for applications in logistics, healthcare, and manufacturing, providing precise control and manoeuvrability.

Our compact Tractive tug range is designed for lighter loads but still with our robust design. Ideal for restricted areas and confined spaces, the TT can manoeuvre loads with the greatest of ease. These battery-powered tug units have a smaller footprint than the TP units whilst maintaining unrivalled performance.

When considering waste management and your facilities operations the efficient movement of heavy loads is an essential aspect of daily operations. At Tractive Power, we are a leading provider of electric tugs and battery-powered tugs. Our innovative solutions improve the way waste is handled.

Introducing Tractive Power Solutions, or simply TPS a powerhouse in the world of earth-moving and alternative power equipment distribution, parts and service. ??? Backed by a team of highly skilled technicians and engineers, ? Equipped with specialized workshop facilities, ? TPS is here for you, committed to excellence every ...

Tractive Solutions is a Sussex based IT Service / Solutions provider. Specialising in public or private cloud deployments or managing onsite services. We provide cradle to grave solutions that will be fit for purpose at all times and manage solutions through the full systems development life cycle. Priding ourselves on delivering the right ...
