solar field, Tron's office slowly grew out of Lester's basement and into a rapidly growing 44-person staffed office.

Tron Solar is a Chicago-land solar energy provider for homeowners and commercial properties. Having helped hundreds of Illinois homeowners convert to solar energy, we have successfully reduced families' power bills and save them money by converting to solar energy. We take pride in using the best quality products available in the market and our ...

At Tron Solar, we harness the power of the sun to generate clean energy for your home or business. Our solar panels convert sunlight into direct current (DC) electricity, which is then converted to alternating current (AC) power by our inverters. This AC power is what powers your household appliances and devices. The Importance of Energy Storage
