

How much solar power does Zambia have?

Zambia's installed solar capacity is 89 MW. Zambia has two utility scale solar power plants: French company, Neoen, and U.S. company, First Solar, own and operate the 47.5 MW Bangweulu Solar Power Station in Lusaka, of which the Zambian government holds a 20 percent stake through its Industrial Development Corporation (IDC).

Who uses the most electricity in Zambia?

The mining sector is the country's largest power consumer, using 51 percent of total generated electricity, followed by the domestic sector at 33 percent. Only 43 percent of Zambians have access to the national power grid (67 percent of urban residents; and 14.5 percent of rural residents).

What are the main hydroelectric power stations in Zambia?

Zambia's main hydroelectric power facilities are the Kariba North Bank Power Station (1,080 MW), Kafue Gorge Power Station (980 MW), Kafue Gorge Lower Power Station (750 MW), Victoria Falls Power Station (108 MW), Lunsemfwa Hydro Power Station (56 MW), and the Itzhi Tezhi Hydro Power Station (120 MW).

Does Zambia have a good electricity mix?

There are notable low-hanging fruits in the development of Zambia's electricity mix. While Zambia has the potential to generate 2,300 MW of solar and 3,000 MW of wind, only 76 MW of solar has been installed and no wind power to date.

Does Zambia need more energy?

While developed nations look to decarbonize, countries in sub-Saharan Africa, including Zambia, will need significantly more energy to power a high-growth society and achieve development goals. The vast majority of Zambia's population is comprised of smallholder farmers, producing 80 percent of the country's agricultural production.

Why did ZESCO import electricity from South Africa?

ZESCO, with financial backing from GreenCo Power Services Limited (GreenCo) and First Quantum Minerals Ltd (FQM), has secured additional electricity imports from South Africa to help alleviate Zambia's energy crisis, driven by record low water levels at Lake Kariba, the country's main hydroelectric source.
