Who manages the energy sector in Tunisia?

As of March 2020, the Tunisian electricity sector is managed by the Ministry of Energy, Mines and the Energy Transition. For the past two years, renewable energy portfolio was managed by the Ministry of Industry, Small and Medium Size Enterprises.

What are Tunisia's energy projects?

One third of the projects will be for wind farms and two thirds for solar photovoltaics. Tunisia's national grid is connected to those of Algeria and Libya which together helped supply about 12% of Tunisia's power consumption in the first half of 2023.

Will Saudi Arabia invest \$10 billion in green hydrogen?

Dubai: Saudi Arabia's Public Investment Fund (PIF) launches a new entity aimed at investing approximately \$10 billion (Dh36.7 billion) in green hydrogen production. The new subsidiary, called Energy Solutions Company, will concentrate on financing the development of low-carbon fuels, as reported by Bloomberg.

Saudi-listed utility developer Acwa Power is understood to be assuming the mandate to deliver, operate and co-invest in future green hydrogen projects in Saudi Arabia, according to an industry source. This follows the cancellation in October of the planned launch of Energy Solutions Company (ESC), a ...

Lower global Brent prices will help narrow the energy trade deficit, while solid tourism and remittances inflows will keep the services and secondary income balances firmly in surplus. The smaller current account deficits, foreign support from EU and Saudi Arabia and FX reserves will allow the authorities meet their large FX obligations in 2025.
