

Siemens Grid Software has launched a new product to tackle this problem. Gridscale X is a software solution offering autonomous grid management, helping utilities scale grid capacity quickly, enhance grid flexibility and manage the grid's modern challenges - mainly, the exponential growth of renewables and DERs.

La Sociéte Tunisienne de l'Electricité et du Gaz (STEG) et les représentants des entreprises titulaires des différents lots du marché, viennent de signer 5 des 6 lots du marché Smart Grid ;

Built on Utilidata's expertise in real-time grid operations, as well as the NVIDIA Jetson(TM) edge AI platform and the NVIDIA AI Enterprise software suite, the software-defined smart grid chip will enable smart meters to deliver greater value to utilities and their customers, while also unlocking new opportunities for clean energy companies ...

Schneider Electric is an undisputed leader in smart grid software and services - including #1 in 2023 for ADMS by Guidehouse and #1 in 2022 for DER management by both Guidehouse and IDC. Access the ADMS report opens in ...

A smart grid is a system that controls, runs, and makes use of energy sources that are integrated into the smart grid through the use of smart communication technology and computerized procedures. ... Tunisia: Bouabidi et al. [81] Feasibility Study: Download: Download high-res image (385KB) Download: Download full-size image; Fig. 3. Components ...

Utility companies face numerous challenges, such as integrating renewable energy, enhancing grid reliability and cybersecurity, managing aging infrastructure, and meeting the increasing demand for energy. As global energy consumption rises, the need to efficiently manage and distribute power becomes critical, driving the shift from traditional grids to ...

Le projet d'installation du compteur électrique intelligent Smart Grid sera généralisé en Tunisie durant la période 2025-2029, affirme le directeur de la coopération et de la communication ...

The government of Tunisia has hired a consortium of external partners to support a major renewable energy transformation. Siemens is one of the program's main partners, with subsidiary Siemens...

Schneider Electric ist unangefochtener Marktführer bei Smart-Grid-Software und -Services - einschließlich die Nr. 1 für ADMS von Guidehouse im Jahr 2023 und die Nr. 1 für das DER-Management durch Guidehouse und IDC im Jahr 2022. Zugriff auf den ADMS-Bericht öffnet in

neuem Fenster.

Schneider Electric is an undisputed leader in smart grid software and services - including #1 in 2023 for ADMS by Guidehouse and #1 in 2022 for DER management by both Guidehouse and IDC. Access the ADMS report opens in new Window Access ...

As part of the Grid Software Engineering Studio, SCL Matrix can pass your engineered SCD system file across to SimLab for MMS Client/Server or GOOSE simulation, or across to gooseAir for simulation of Process Bus Sampled Values. ... Smart DataSet Engineering. DataSet engineering is synchronized with the capability of IEDs listed in the Services ...

Internet of Things (IoT) is a connection of people and things at any time, in any place, with anyone and anything, using any network and any service. Thus, IoT is a huge dynamic global network infrastructure of Internet-enabled entities with web services. One of the most important applications of IoT is the Smart Grid (SG). SG is a data communications network ...

Globema delivers specialized software solutions that support the construction and maintenance of smart grids, featuring optimal distribution network infrastructure management, advanced technical calculations (based on static and dynamic data, also from AMI), forecasting & planning production of energy from RES, control and regulation of voltage levels and reactive ...

Our solutions for Grids of the Future help utilities digitize, optimize, and automate grid processes for a more sustainable future. We offer the industry's broadest, end-to-end software and services for managing the entire lifecycle of the grid, ...

This first phase will pave the way for a full-scale smart metering rollout across Tunisia. New digital tools and the use of data will revolutionize the way STEG carries out its ...

The ambitious Tunisia smart grid project is set to kick off after parliament approved a US\$131.7 million loan request from French Development Agency (AFD).. The loan, which is to be repaid over 20 years with a grace ...
