At the heart of this installation are 14 SIMPO HV modules by ZYC Energy, configured in two towers for a
total capacity of 44.8 kWh. This modular and scalable design ensures reliable energy storage to support the
workshop's production needs and additional activities like cooking classes and rice dish workshops.

A QuickStart guide with further details about installation and configuration is available from ZYC Energy
here. Their product manual contains further information here. 3. Installation Video Video 4. Support Support
