

Macquarie Asset Management's Green Investment Group has today announced the launch of Eku Energy, a global battery storage platform. Upon completion of the launch in all proposed jurisdictions, Eku Energy will have 190 MWh of ...

Fluence is also working with Eku on its 400MWh project with Shell Energy. Image: ACT Government . The government of the Australian Capital Territory (ACT) has partnered with developer Eku Energy to deliver its flagship Big Canberra Battery project.

Loudwater is a 40MW/55MWh Battery Energy Storage System which Eku Energy is delivering near High Wycombe in Buckinghamshire, England. Construction is due to commence in early 2024 and the battery is expected to be operational in Q4 2024. Once complete, the battery will provide vital flexibility to enable more renewable generation and increase ...

5 ???&#0183; Habitat Energy, a leading global optimiser of battery storage and renewable energy assets, has been appointed by Eku Energy, a global battery storage specialist, to optimise its Williamsdale Battery Energy Storage System (BESS), a 250MW/500MWh battery to the south of Canberra, Australia.. The Williamsdale BESS is due to be operational in 2026 and forms part ...

Eku Energy has partnered with the Australian Capital Territory (ACT) Government to deliver a 250 megawatt (MW) / 500 megawatt-hour (MWh) battery energy storage system (BESS). Located at Williamsdale in the south of Canberra, the battery will store enough renewable energy to power one-third of Canberra for two hours 1 during peak demand periods ...

Developer Eku Energy, backed by global investor Macquarie, and system integrator NHOA will start building two battery energy storage system (BESS) projects totalling 130MWh. Eku announced it had placed an order with ...

The agreement, signed on 28th June 2023, secures Eku Energy exclusivity over 1GW of battery storage projects in Italy. As part of the agreement, Eku Energy is already funding projects with a combined capacity in excess of 100MW in the South of Italy, a region with high levels of renewable penetration and an increasingly congested grid. ...

"The Maldon battery energy storage system is Eku Energy's first project to reach commercial operation in the United Kingdom, and we are excited to be delivering critical energy storage capability to the UK network," said Daniel Burrows, CEO of Eku Energy. "Battery energy storage provides important firming capability to increase the grid ...

Battery storage developer Eku Energy has partnered with utility Tokyo Gas on a grid-scale energy storage project in Japan, with construction expected to start soon. The developer, jointly owned by a fund managed by ...

Eku Energy, the UK battery platform of Macquarie's Green Investment Group (GIG), has launched the construction of its first energy storage project in Japan, a 30-MW/120-MWh system in Miyazaki Prefecture. The ground-breaking was held last week and marked by a traditional Japanese ceremony, the company said in a LinkedIn post. The Hirohara battery ...

1 ??&#0183; Eku Energy will receive fixed quarterly payments for 15 years. Habitat Energy is a portfolio company of Quinbrook Infrastructure Partners. With the latest deal, the company has ...

Global battery storage company Eku Energy intends to expand its global energy storage capacity to 9 gigawatt hours (GWh) by 2028. This ambitious target marks a substantial increase from the current 1.3GWh, ...

Eku Energy's Head of Technologies EMEA Andy Hadland, second from left, at the Energy Storage Summit in London last month. Image: Solar Media. Developer Eku Energy, backed by global investor Macquarie, and system integrator NHOA will start building two battery energy storage system (BESS) projects totalling 130MWh.
