

The OGT 2024 conference aims to attract foreign investors to Turkmenistan's energy projects, foster scientific research in the oil and gas sector, and strengthen international partnerships. The OGT Expo, which will be held within the conference's framework, will showcase achievements in the global and Turkmen oil and gas industry.

Turkmenistan's export of 30 billion cubic meters of gas to China is equivalent to 60 million tons of coal, positively impacting the region's climate. The OGT 2024 conference aims to attract foreign investors to Turkmenistan's energy projects, foster scientific research in the oil and gas sector, and strengthen international partnerships.

This makes Turkmenistan a country independent of energy imports (without taking into account the structure of energy consumption). According to the Statistical Review of World Energy 2022, primary energy consumption in Turkmenistan in 2021 amounted to 1.60 exajoules and was dominated by natural gas - 82.5%, ahead of oil - 17.5% [12].

Today [13 April], the delegation led by the Deputy Chairman of Turkmen Gas State Concern engaged in several meetings in Brussels. The primary focus was on the Turkmenistan-EU Energy Working Group meeting. This included representatives from the Directorate General for Energy of the EU Commission, European External Action Service, Directorate General for International ...

Turkmenistan TM: Energy Consumption: % of Total Energy Consumption: Transport data was reported at 27.610 % in Dec 2020. This records a decrease from the previous number of 28.000 % for Dec 2019. Turkmenistan TM: Energy Consumption: % of Total Energy Consumption: Transport data is updated yearly, averaging 26.810 % (Median) from Dec 1990 to 2020, with ...

Turkmenistan's energy market is controlled by the State. Primary energy shares (in 2008) consisted of 72.4% gas and 27.6% oil. Most of the populations receives natural gas and electricity for free. Those who do pay, enjoy the world's lowest energy prices. Yet, inefficiency and waste are clearly a result of this policy.

The Turkmenistan-EU energy working group discussed cooperation in the fuel and energy sector in Brussels. 14:48 15.04.2024 3508 Issues of diversifying Turkmen gas supply routes, cooperation in the field of methane emissions and renewable energy were discussed at a meeting of the Turkmenistan-EU Working Group on
