

Turks and Caicos Islands the smart storage system

The Turks and Caicos Islands is a British Overseas Territory located in the North Atlantic, and is composed of two island groups: the Turks Islands and the Caicos Islands. There are eight major islands, of which six are inhabited. The Turks Islands, located on the eastern side of the archipelago, include Grand Turk (home of the capital Cockburn Town) and Salt Cay.

This profile presents a snapshot of the electricity generation and reduction technologies, including solar hot water heating, available to Turks and; Caicos - a British overseas territory consisting of two groups of islands located southeast of the Bahamas.

Both islands receive electricity via an undersea cable from Providenciales, and a battery energy storage system will help to reduce grid disruptions and strengthen redundancy. The twin ...
