

Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar PV investment, the government of Uganda introduced model contracts in their investment guides.

The new 10 megawatt facility is Uganda's first grid-connected solar plant and will generate clean, low-carbon, sustainable electricity to 40,000 homes, schools and businesses in the area.
