

How many Helion solar panels have been transported from Switzerland to Ukraine?

A total of 978 Helion solar panels, with a combined capacity of 315 kW, have been transported from Switzerland to Ukraine through the Union Civil Protection Mechanism (UCPM), with assistance from the Emergency Response Coordination Centre (ERCC) and the Ukrainian Ministry of Infrastructure, along with support from the German Authorities.

Does Ukraine have solar power?

In the years leading up to the start of the Russian war of aggression, the share of solar power in Ukraine's total electricity generation capacity had already increased significantly - from 5.9 GW in 2018 to 8.06 GW in 2022 - an increase in solar generation capacity of almost 37%.

Does Ukraine have a solar farm?

The Gnatkiv solar farm, one of Rengy Development's Ukraine project portfolio. Image: Rengy Development. Despite Ukraine's ongoing conflict with Russia, the country's solar sector continues to develop. Lena Dias Martins reports on the opportunities solar developers are finding amid the horrors of war.

What is heliasol solar?

Revolutionary solar! HeliaSol is globally the only commercially available and IEC certified organic solar solution. Invented, developed, and manufactured by German engineering excellence, the solar films (not panels!), are light-weight, bendable, and truly sustainable.

What does Heliatek stand for?

Here you can see a selection of the latest awards. Heliatek stands for innovative solar films that transform buildings all over the world into clean energy generators. We set the highest standards for the quality of our products and the sustainability of our actions.

Can heliasol be installed on a building?

Standard solar panels are unsuited for many buildings, and do not make efficient use of available space. Together with our partners we have realized more than 75 installations demonstrating that HeliaSol perfectly fits on virtually any building shape & structure - enhancing its appearance!
