Ultra solar energy solutions Costa Rica

Currently, Costa Rica generates less than 1% of its energy production using solar power. In November 2021, Costa Rica approved bill 22.009 "Promotion of the generation of energy resources distributed from renewable sources," and Costa Ricans are now able to produce their own renewable electricity and sell their surplus energy.

Also, these solar jobs will not be outsourced to India or China. These skilled, well-paid jobs will stay in Costa Rica. This is unlike the call center industry, which is threatened by the constant improvements in technology being created by the Speech recognition AI industry and by the de-centralization of work resulting from changes wrought by Covid-19.
