Who is Guernsey Gas Light Company Limited?

The Guernsey Gas Light Company Limited was formed. Gas was used in local homes, proving to be a safe and cost-effective fuel for heating, cooking and hot water. All local gas was generated from coal at production plants in St Peter Port. It was decided to manufacture mains gas from Liquefied Petroleum Gas (LPG) Butane and Propane.

How can Guernsey support a vibrant economy?

Supporting a vibrant economy - A clean, reliable, and affordable energy supply is a fundamental economic enabler. Establishing an environment for the development of on-island (including offshore) renewables will support the diversification and vibrancy of Guernsey's economy.

What is the energy transition in Guernsey?

In Guernsey, we currently rely on fossil-fuel based systems of energy production and consumption and operate a thermal power station. However, it is recognised that as part of the response to climate change, there is a need to transition to an energy mix with limited, if not zero carbon emissions. This is often referred to as the energy transition.
