

United Arab Emirates ; Quality and service for the world market. ... The product range includes test and measurement products, rectifier and inverter systems, DC-DC converters, UPS-systems, OEM power supplies, chargers for traction batteries ...

On Line Double Conversion technology An On Line Double Conversion UPS system converts power twice: - first, the AC power from the mains (with all its voltage peaks, disturbances and other anomalies) is converted into DC power. - secondly, the DC voltage is in turn converted to a strictly regulated AC voltage by the inverter.

It optimizes UPS efficiency while delivering advanced power quality and zero transfer time to double conversion mode or battery operation when AC input power quality fluctuates outside normal operating ranges. Discover more on our 3-phase UPS product page and eConversion solution page. Released for: Schneider Electric United Arab Emirates
