

# United Kingdom power vault

Is PowerVault a UK company?

It is a British company, with a London head office, and it also assembles its products in the UK. This means you have easy access to Powervault staff, either before, during or after installation. Powervault's home battery storage products have really come on in recent years.

Are PowerVault batteries British made?

The Powervault is all British made too. Date of experience: December 12, 2023 I had P3 batteries fitted in Summer 2022 and they have performed really well. A few minor tech issues/queries were promptly sorted with a phone call, answered by a UK expert in the factory.

Is PowerVault a good brand?

Customer Service: Powervault is a British company based in London. This means they can offer more hands-on and timely support for their customers compared to brands that are based abroad. It's also reassuring to know that they have engineers available to visit your home if any concerns were to arise.

We got our 12kWh P4 Slim Powervault in June 2023. We are using it to load shift our daily electricity needs in our London flat, which it does brilliantly. The 5kWh inverter can supply ...
