

What services does verasol offer?

VeraSol supports the growing global market for modern off-grid solar solutions with a comprehensive suite of quality assurance services. Our core services help sector actors implement and improve quality assurance across all areas of the market.

What happened to photovoltaic panels in 2023?

In the following years the cost of photovoltaic (PV) panels fell, and the FIT rates for new installations were reduced in stages until the scheme closed to new applications in 2019. As of 2023, over 14.4 gigawatt (GW) had been installed, a third of which was rooftop solar.

Why should you choose verasol?

VeraSol supports high-performing, durable off-grid solar solutions that expand access to modern energy services. An evolution of Lighting Global Quality Assurance, VeraSol strives to make safe, affordable, and durable products the default option in the market.
