

Uron energy Eritrea

Who is uron energy?

URON Energy has developed projects in several countries and are well equipped with the experience and skills to create a global presence. URON envisions a future where clean energy technologies are accessible to all, with little or no upfront costs.

What makes uron a good company?

At URON, we are driven by a deep commitment to environmental responsibility. Our mission is to create a positive impact on the planet by providing sustainable and innovative solar solutions to homes and businesses. With a focus on renewable energy, we strive to empower individuals and organizations to transition towards clean, solar power.

Why should you choose uron energy?

The aim is to give our clients the world's cleanest green energy electrons on time and the budget they can be proud of. URON Energy has developed projects in several countries and are well equipped with the experience and skills to create a global presence.

Is the Eritrean government facilitating oil & gas exploration?

The Eritrean government is facilitating oil and gas exploration, examining the potential of geothermal energy generation, and open to utilizing excellent wind energy resources as a driver to export-oriented industrial growth, but these scenarios are fairly speculative at this stage, and thus beyond the scope of the present study.

How much electricity does Eritrea have?

It is also working towards raising the share of electricity generation from renewable energy. According to the 2019 World Bank Global Electrification Database, 50.3 per cent of Eritreans have access to electricity, with electrification reaching 75.6 per cent and 36.6 per cent of the urban and rural population, respectively.

Is Eritrea making EE/re investments?

The actual investment intensity estimate shows that Eritrea is currently making EE/RE investments at the level of the moderate EE/RE scenario and the investment intensity may accelerate in the next few years.
