

Us3000c lithium battery Qatar

What is a us3000c battery?

Description US3000C is the latest ESS battery system provided by Pylontech. It's designed around providing a longer service life at higher power output/density per module. Besides its high storage capacity and ease of installation it provides the ability to scale up to commercial sized storage systems and are used effectively.

What is a pylontech us3000c solar battery?

The US3000C is an HESS solar battery system provided by Pylontech, developed with their own lithium iron phosphate cell to ensure the highest safety value and most promising life cycle. A self designed BMS protects the cell from abnormal temperature, current, voltage, SoC and SoH. The Pylontech US3000C has an incredible DoD of 95%.

What makes the us3000c a good storage system?

The simplicity and modularity of the 3.55 kWh capacity US3000C make it suitable to realize storage systems of small and large capacities that can be expanded according to current and future energy needs. Among the new features there is the built-in Soft-Start function able to reduce the peak current when inverter needs to start from battery.

What is the DoD of the pylontech us3000c?

The Pylontech US3000C has an incredible DoD of 95%. Please use a dimension of 3U per module when sizing a cabinet for these batteries. Advantages

Why should you buy a us3000c?

Benefit from advanced BMS software, ensuring equal cell charging. With a proven track record in over 5,000 homes, the US3000C boasts an extended lifespan, industry-leading energy density, and easy expandability. Now features an impressive 95% depth of discharge and double the capacity with 16 parallel installations.

What is a pylontech us3000c BMS?

A self designed BMS protects the cell from abnormal temperature, current, voltage, SoC and SoH. The Pylontech US3000C has an incredible DoD of 95%. Please use a dimension of 3U per module when sizing a cabinet for these batteries.
