

Power & Air Solutions, the Deutsche Telekom subsidiary, has completed its first battery energy storage system (BESS), supplied by Pixii. Deutsche Telekom, Munich The storage system is installed at one of Deutsche Telekom's main offices in Munich, Germany, and its completion was celebrated by senior management from Power & Air Solutions and Pixii.

"Distributed BESS is a game-changer for remote and off-grid communities in Australia, enabling them to generate and store their own power, reducing reliance on costly grid connections or diesel generators, and fostering energy independence." Darren Nankivell, Pixii Global Product Manager - Off-grid Solutions, Greater Brisbane Area

Pixii's BESS is the safe choice for your business, giving you peace of mind and ensuring your operations are secure, reliable and efficient. With a 48 volt modular design and advanced safety features, you can trust that you are in safe hands. Products. ...

Pixii's battery energy storage systems with smart functionality enable telecom operators to better utilize these resources and address challenges in local grids. By introducing bi-directional ...

Join Pixii and FLEXECHARGE for an insightful webinar. This event will delve into the critical interplay between Battery Energy Storage Systems (BESS) and electric vehicle (EV) infrastructure, exploring the technological advancements and integration strategies shaping the future of reliable EV-Charging. We will discuss the current challenges in ...

The Pixii BESS enables fast charging even in areas with weak grid infrastructure, while optimizing energy use and generating revenue. Pixii's modular and scalable BESS is designed to grow with your business, keeping investment costs low. With smart functionality like time shifting and peak shaving, you can store energy during off-peak hours ...

ENGIE's first battery storage system in Slovakia, utilizing Pixii's PowerShaper technology, began operations in January 2024. This BESS is integral to ENGIE's multi-phase project, enhancing grid stability, supporting renewable energy integration, and laying the groundwork for future energy flexibility services in Slovakia.

Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, PowerBase XL) delivers unparalleled performance and reliability for energy-oriented ...

The Pixii battery energy storage system is modular, easy to scale and quick to deploy. It comes with smart functionality, allowing you to reduce your energy costs, open new revenue streams, and get the most out of

Vatican City pixii bess

your PV installation ... (BESS) from Pixii you find our bi-directional power conversion unit called the PixiiBox. Bi-directionality ...

Pixii's BESS is the safe choice for your business, giving you peace of mind and ensuring your operations are secure, reliable and efficient. With a 48 volt modular design and advanced safety features, you can trust that you are in safe hands. ...

Optimize energy use and generate revenue with a modular, scalable BESS. With energy demand on the rise, businesses need a flexible solution that scales to meet their needs without upgrading old grid infrastructure. The Pixii PowerShaper is a modular battery energy storage system that optimizes energy use, helping you avoid costly grid upgrades.

The new Brisbane office is an addition to Pixii's existing presence in Sydney and reflects our commitment to extending the reach across Australia. The strategic decision to expand in Brisbane was motivated by Pixii's increasing growth in the country and the unique suitability of its distributed BESS solutions for the Australian energy ...

A bi-directional BESS with smart functions. Pixii's battery energy storage system offers a range of advanced functions, including voltage support, phase balancing, and active and reactive power compensation. The BESS is modular and easy to install, with hot swappable modules for easy maintenance. It also comes with remote monitoring and a ...

The Pixii BESS enables fast charging even in areas with weak grid infrastructure, while optimizing energy use and generating revenue. Pixii's modular and scalable BESS is designed to grow with your business, keeping investment costs low. ...

Pixii's BESS provides a fully integrated solution that seamlessly distributes power from solar PV panels, AC/DC coupling, and other energy sources, storing excess energy for later use. It ensures reliable power supply while optimizing cost savings through peak shaving and load management. ... Pixii AS is committed to protecting and respecting ...

The Pixii Battery Energy Storage System is designed to be easy to install, quick to deploy, and requires minimal maintenance. With its innovative power architecture, all-in-one cabinets, and intuitive web app, the Pixii BESS is the perfect solution for anyone looking for a reliable and efficient energy storage system.
