

Does the Vatican need a solar plant?

The implementation of a solar plant not only improves the Vatican's environmental sustainability, but also offers economic and social benefits. By generating its own energy, the Vatican can save on light. This is especially relevant in a context where the price of light is a constant worry for many.

Where is Vatican Radio's New solar power plant located?

The plant will be located in Santa Maria di Galeria, some 11 kilometers from Rome, where Vatican Radio's broadcasting station is located. Not only will this project generate renewable electricity, but it will also be integrated with the land's agricultural needs, combining modern technology with sustainable practices.

How can Vatican City achieve climate neutrality?

A. Climate neutrality can be achieved by Vatican City State primarily through the use of natural sinks, such as soil and forests, and by offsetting emissions produced in one area by reducing them in another. Of course, this is done by investing in renewable energy, energy efficiency or other clean technologies such as electric mobility.

How can the Vatican reduce its environmental impact?

A glimpse of the Vatican Gardens The Holy See is aiming to reduce its environment impact by embracing renewable energy sources, with the goal of zero emissions by 2050. In an interview with L'Osservatore Romano, the Governorate's Director for Infrastructures and Services explains the path undertaken by the Vatican. By Nicola Gori

Can the Vatican save on light?

By generating its own energy, the Vatican can save on light. This is especially relevant in a context where the price of light is a constant worry for many. The use of solar energy also improves the State's energy efficiency, enabling a more responsible and sustainable light consumption.

In 1991 it was renamed the Security Corps of Vatican City State; finally, in 2002 its policing role was redefined, and it was given its current name of Gendarmerie Corps of Vatican City State, [12] a title which links it back to its original military foundation. The military unit's elaborate ceremonial uniforms continued in use until 1970.
