

Introducing the Enersol 5.12kW WM Battery - Your Lithium Powerhouse. Key Features: Exceptional Depth of Discharge: Unlike traditional batteries with approximately 85% Depth of Discharge (DoD), the Enersol 5.12kW WM Battery boasts cutting-edge technology, allowing you to utilize nearly all of its power before recharging. This high DoD translates to extended and ...

Key features of the Enersol 51V-200Ah Lithium Battery include a high energy density and an extended cycle life, ensuring it consistently provides the energy required for your projects. Whether you're looking to power renewable energy systems, electric vehicles, or critical industrial equipment, this battery is well-equipped to handle the task...

This 4.8kWh LFP module supports both floor-standing and wall-mounted installations. It is equipped with OTA function for remote upgrade and monitoring. Up to 30 modules in parallel, it can meet various needs of users and enable flexible expansion.

Free nationwide delivery on lithium batteries and inverters. Features: Touch screen display New / 1st life - LiFePO4 cells Low environmental impact Superior thermal stability High peak power rating Long cycle life Intelligent Battery Management System (BMS) BMS communication compatible with: Sacolar Inverters Growatt

48v 150ah 7.5kwh Lithium Stackable Energy Storage Battery The OSM Ground station energy storage battery is a great dynamic possibility which can be expanded in series as well as parallel, according to the need. The power ...

This document summarizes the specifications of the Lithium 51-100 battery from EnerSol. Key details include: 1) It has a 100Ah capacity at 51.2V nominal voltage and can be used in parallel configurations of up to 15 units.

48v 150ah 7.5kwh Lithium Stackable Energy Storage Battery The OSM Ground station energy storage battery is a great dynamic possibility which can be expanded in series as well as parallel, according to the need. The power supply 7.5kwh lithium modular design makes it useful to meet higher energy storage capacities for household. Add more

The Intelligent Battery Management System (BMS) provides a host of protection features. ... We have a 5 year warranty for our lithium batteries, longer than the average solar storage system, with a full active warranty centre in South Africa. ... Terms & Conditions; Signup for our mailing list -> sales@enersol.africa; support@enersol.africa ...

Venezuela enersol lithium battery

The enerSol Lithium storage solution has been specifically designed to meet your energy storage needs within the Residential, Small Scale Commercial and Telecoms industries with proven compatibility with most major inverter brands. ...

The Mono-PERC range stands out with a larger watt capacity compared to other PV modules. It excels in low-light situations, such as cloud coverage and shade, thanks to its advanced light absorption capabilities. The advanced cell structure, featuring rear-side passivation layers and advanced front-side contact designs, minimizes energy loss and improves electron collection, ...

10.2kWh Voltage: 51v 20 Year Design Life Parallel up to 15 units Powerful 150A Discharge Interactive LCD Display for instant device information Intelligent BMS communicates with major inverter brands 6000 cycles @ 80% DoD Weight: 85Kgs

Cell Design 16x 3.2V Prismatic Lithium Iron Phosphate (51V nominal) Low DC Cut-Off @ 99% DoD 42.1V Low DC Cut-Off @ 90% DoD 44V Low DC Cut-Off @ 80% DoD 46V Bulk Charge 54V Float Charge 51.7V 99% 99% 1C 16 Cell HIGH CYCLE LIFE ... info@enersol.africa. Created Date:

5.12KWh 51-100V Voltage: 51v 20 Year Design Life Parallel up to 15 units Interactive LCD Display for instant device information Intelligent BMS communicates with major inverter brands 10 Year Warranty Weight: 43Kgs

The installation of Enersol Solar Panels may be performed on a low pitched (less than 12:12 or 45 degrees angle) shingle and some types of metal roofs. If an installation varies from these types, 1 ins Enersol should be advised and asked for special

The enerSol Lithium 51 - 200 storage solution has been specifically designed to meet your energy storage needs within the Residential, Small Scale Commercial and Telecoms industries with proven compatibility with most major inverter brands. Its modular design is perfect for module-based systems for backup power in both on-and-off-grid applications.
