NABCEP was founded with the mission to support and work with the renewable energy and energy efficiency industries, professionals and stakeholders to develop and implement quality credentialing certification programs for practitioners. GreenBrilliance is a vertically integrated, end to end alternate energy services provider.

CARE has withdrawn the rating assigned to the Bank facilities of Greenbrilliance Renewable Energy LLP with immediate effect. The above action has been taken at the request of Greenbrilliance Renewable Energy LLP and "No Objection certificate" received from the bank that has extended the facilities rated by CARE.

So, reducing energy consumption can inevitably help to reduce emissions. However, some energy consumption is essential to human wellbeing and rising living standards. Energy intensity can therefore be a useful metric to monitor. Energy intensity measures the amount of energy consumed per unit of gross domestic product.

The Renewable Energy Engineer will perform energy audits, energy modeling, energy simulations, design and operation of projects to optimize energy performance of distributed energy resources. They will also support clients with the implementation and measurement of various energy efficiency and sustainability solutions.
