Who is SHV Energy?

SHV Energy provides decentralised, cleaner and lower-carbon energy solutions to 26 million business and residential customers around the world. We achieve that with the support of our 13,000 employees and our operations located in 25 countries across 4 continents. At SHV Energy, what we do is driven by our vision.

How does SHV Energy contribute to the energy transition?

SHV Energy's main contribution to the energy transition is through its products and services. The energy solution we currently provide to most of our customers is LPG-based. We are a global leader in the distribution of LPG to both companies and domestic consumers, and this area of our business continues to grow.

Why should I partner with SHV Energy?

We would love for you to partner with us. SHV Energy is a leading global distributor of off-grid energy, such as LPG and LNG, and is active in sustainable fuels and renewable energy solutions. If you are interested in a product or solution in your local market, please refer to our global map.

How does SHV Energy procurement work?

At SHV Energy, we separate procurement into gas and non-gas. The LPG part of our gas procurement is predominantly managed by our business unit SHV Gas Supply and Risk Management (S&RM). S&RM procures LPG on behalf of our business units. LNG procurement and logistics in Europe is managed by a business unit called Prima LNG.

Why did SHV Energy acquire sunsource energy?

SHV Energy acquired a majority stake in SunSource Energy, a leading provider of distributed energy for commercial and industrial customers in India with a presence across South-East Asia. This is SHV Energy's first step into solar energy. SHV Energy's main contribution to the energy transition is through its products and services.

What are SHV Energy's Core Values?

The company's values, principles, standards and norms (often described in a Code of Conduct/Code of Ethics). General principles of governance and business values are accountability, transparency, integrity and compliance. We trust that our external and internal stakeholders can rely on a relationship with SHV Energy based on integrity.

SHV Energy General Information Description. Distributor of off-grid energy intended to provide decentralized, low-carbon, and clean energy solutions. The company provides LNG, LPG, and sustainable fuels such as rDME, and BioLPG, distributed solar, thereby helping people to switch from polluting fuels resulting in a reduction in greenhouse gasses and air pollutants.

SHV Energy is looking for pathways that can produce saturated C3/C4 hydrocarbons (LPG - propane and/or butane/iso-butane) from sustainable and locally sourced feedstocks with yields that could ultimately be scaled to make production commercially viable. The saturated C3/C4 hydrocarbon may be a co-product with other similarly valuable components.
